CAREER OBJECTIVE:

I am seeking a career opportunity. I've been working as a MERN Stack Developer for almost one year. I have worked with technologies like React.Js, Mongo DB, Express, HTML, CSS, Javascript, TailWind, Saas, bootstrap, and NodeJs. I'm a MERN Stack developer with hands-on experience developing and maintaining web applications. In addition to my professional experience. Coding and building Websites is my passion.

CAREER PROFILE/SKILLS:

- MERN Stack Developer
- React Js
- Node Js
- Express js
- MongoDB
- TailwindCss
- JavaScript
- Bootstraps 5
- HTML/CSS
- Build Rest APIs

PROFESSIONAL WORK EXPERIENCE:

Organization: **TICER Institute Lodhran**
(Information Technology)
Tenure: September 2023 – April 2024
Designation: MERN Stack Developer

Responsibilities:

- **Front-end Development:** Building user-friendly interfaces using HTML, CSS, and JavaScript (often with libraries like React.js)
- **Back-end Development:** Developing server-side logic using Node.js and Express.js, handling data and ensuring smooth server operation
- **Database Management:** Working with MongoDB to store, retrieve, and manipulate data efficiently.
- **API Integration:** Integrating third-party APIs or developing APIs to connect front-end and back-end functionality.
- **Earning and Growth:** Continuously learning new technologies, tools, and best practices to improve skills and contribute effectively to projects.
- **Collaboration:** Working closely with senior developers, designers, and other team members to deliver high-quality software solutions.
- **Documentation:** Documenting code, processes, and project updates to ensure clarity and maintainability.
- **Adaptability:** Being adaptable to changing requirements and willing to take on new challenges in a dynamic development environment.

Achievement:

Organization: Codelab Technology Of Bahawalpur
Tenure: April 2021 –May 2023
Designation: Front-End Developer

Responsibilities:

- **Implementing Designs:** My design mockups from tools like Figma, Sketch, or Adobe XD into fully functional web pages using HTML, CSS, and JavaScript.
- **Responsive Design:** My website or application is accessible and looks good on all devices, including desktops, tablets, and smartphones.
- **Performance Optimization:** I optimize website performance by minimizing load times, ensuring seamless interactions, and refining the overall efficiency of the front-end code.
- **User Experience (UX) Improvement:** I improve user experience by creating intuitive, interactive, and user-friendly interfaces, following best practices in usability.
- **Integration with Backend:** I collaborate with backend developers to integrate frontend code with backend logic, APIs, and databases, ensuring seamless data flow and functionality.
- **Continuous Learning and Improvement:** I'm updated with the latest front-end development trends, tools, frameworks, and best practices to continuously improve skills and the quality of the work.
